As well as we working on recovering addicts training and rehabilitation formed by the educational, cultural, environmental improvement and Social Workers for the upliftment of the down trodden community, especially for the vulnerable class of the

society and those who belong to (ST) Scheduled Tribes , scheduled castes (SC), and OBC. Most of the people belonging to the said community are deprived of physical, Education, Economical, and other field, they have not made the desired progress.

This Organization has been very prompt in order to find the solutions to the problem raise in the field of education, women and children belonging to weaker and backward class community and has been active in solving major aspects of education and unemployment, economical, social health and all other related problem.

The organization has been engaged in the welfare and development activities which are meant for the cause of the welfare of the weaker of the weaker sections of the rural and slum community.

The organization has identified the basic need of human being, about the education, agriculture, health, nutrition, unemployment and tried to solve through the counseling etc. Various activities have been undertaken by the organization in the year 2023-24 as follow.

VISION:

Our vision is to change the future of orphans and vulnerable children through the love god and family

MISSION:

Our mission is to break the cycle of poverty by providing holistic development to impoverished orphans, widows and leprocy affected people in India. Through meeting their physical, educational, spiritual and social needs. To challenge and equip children to live productive and responsible lives

1. Bee Keeping :

Beekeeping training can include learning how to care for bees, handle beehives, and use bees for pollination. You can get beekeeping training at recognized training centers and through courses.

- Sustainable beekeeping principles include:
 - o Keeping local bees
 - o Using structural hives that are similar to natural bee homes
 - o Spacing out hives
 - o Ethical honey harvesting
 - o Planting native forage
 - o Operating treatment-free hives
 - o Practicing minimal interference

➤ Practical Workshop on Horticulture

Training in horticulture is a method of guiding plant growth to achieve specific shapes, structures, and habits. Training can be done by staking, tying, bending, or pruning branches.

- Improves productivity, health, and visual appeal
- Enhances light penetration and air circulation
- Makes tasks like pruning and harvesting more manageable
- Promotes faster drying after rain or dew
- Facilitates better spray coverage for disease and pest management
- Protects the tree trunk from sunburn injury
- Secures a balanced distribution of fruit-bearing parts on the main limbs of the plant

➤ Practical Workshop on Fishery

- Fishery studies can help you gain academic and practical knowledge about fish breeding, rearing, and harvesting.
- Fishery training programs can cover topics such as fish biology, fishing vessel engineering, and fish processing. These programs can help you prepare for a career in aquaculture.

➤ Financial Literacy Programme of Training :

Financial literacy program focuses on the ability to manage personal finance matters in an efficient manner. It is a key life skill required for an individual's personal and professional growth. It is important because it enables us to provide for ourselves and avoids situations of debt.

➤ Cycling Repairing trainee Workshop:

A cycling repair workshop, also called a bike repair shop, is a dedicated space where professional bicycle mechanics perform maintenance and repairs on bicycles, including fixing flat tires, adjusting brakes, replacing worn components like chains and gears, and addressing more complex issues with the bike's frame or suspension system; typically offering services like tune-ups, wheel truing, and custom fitting depending on the shop's expertise and clientele.

Key details about a cycling repair workshop:

- **Services offered:**
 - Flat tire repair
 - Tube replacement
 - Brake adjustments
 - Chain replacement

➤ **Prevention of alcoholism, Drug Addiction and Health counseling program:**

By observing the bad condition of the slum dwellers in drug addiction (drinking wine, smoking Cigarette, Drug ,Chewing Ghutka), the organization has thought over on this problem and their serious hazards, started de-addiction counseling in few selected slum areas in Nagpur, regular guidance is given for the youths for not becoming the victim of addiction and to avoid all these bad habits and practices, so as to lead happy and healthy life with all their family members.

➤ Veilding Workshop training :

Welding is a joining process in which metals, or sometimes plastics, are heated, melted and mixed to produce a joint with properties similar to those of the materials being joined. There are three main components needed to create a weld. These are: A heat source such as an electric arc, a flame, pressure, or friction.

➤ Blood Group check up camp in schools:

Based on the importance of blood group we have arranged this camp with the assistance from lab technician in Nagpur. In which near about 250 men and women participated guidance given to all beneficiaries about its importance by our lab technician at the same time.
